

Occupational Health & Safety Program Enrollment Category Guidelines Table

	Category I	Category II	Category III	Category IV
Species →	Rodents Rabbits Amphibians Reptiles Fish Birds Pigs Cattle Horses	Dogs Cats Bats Bears	Sheep Goats	Non-human primates
Initial OHSP Questionnaire	Yes	Yes	Yes	Yes
Annual OHSP Questionnaire	Yes	Yes	Yes	Yes
Tetanus Vaccination	Yes	Yes	Yes	Yes
Allergy Risk Assessment	Yes	Yes	Yes	Yes
Hepatitis B Vaccination (See Note 1)	No	No	No	See Note 2
Rabies Vaccination/Titer	No	See Note 3	No	See Note 3
Measles Vaccination/Immunity	No	No	No	Yes
Q-fever titers	No	No	See Note 4	No
Toxoplasmosis titers	No	See Note 5	No	No
Negative Tb test	No	No	No	Yes
Pre-employment Physical (See Note 6)	No	No	No	No
Annual Physical (See Note 6)	No	No	No	No
Post-employment Physical (See Note 6)	No	No	No	No
Serum Banking (See Note 6)	No	Yes	Yes	Yes
Serologic Monitoring (See Note 6)	No	See Note 3 & 5	See Note 4	No
Pulmonary Function Test (See Note 6)	No	No	No	No
Respirator Fit Test (See Note 6)	No	No	No	No

NOTES:

1. Hepatitis B vaccination is required for work with human tissues, blood, or bodily fluids.
2. Hepatitis B vaccination is required for work with great apes (e.g., chimpanzees).
3. Rabies vaccination and serologic monitoring of rabies titer is required for work with random source (Class B) dogs and cats, feral carnivores, bats, imported wild caught non-human primates while in quarantine, or the Rabies virus. Also, required for Animal Resource individuals.
4. Q-fever titers are required for work with female sheep/goats (including the placenta, amniotic fluid, blood, or soiled bedding) or directly with the *Coxiella burnetti* organism.
5. Toxoplasmosis titers are required for females of child-bearing age that work with random source or feral cats.
6. May be required for ABSL-2 or ABSL-3 work.
